

ROLLING ACCESS FUNDING

Families and/or individuals in need of low intensity support services may access them directly through one of the local agencies providing DDA funded Family and Individual Support Services (FISS). Low level supports, referred to as "rolling access", are those supports that may be provided for less than \$3,000 annually; however, these supports are limited by the extent to which resources are available. Because funding availability is limited, not all requests are funded at the maximum amount. Rolling Access funds help families and individuals receive support quickly without going through the full eligibility process. For services that cost over \$3,000 annually the family and/or individual must go through the full DDA application and eligibility process.

* Please note that the FISS Service Providers listed can change at any point throughout the year based upon funding availability at the time an individual or family request for Rolling Access Funds is made. Funding is renewed at the start of the fiscal year and FISS Providers may change.

For additional information contact your Maryland Developmental Disability Administration Regional Office.
